THE ZYTO COMPASS makes health assessments simpler - all you have to do is place your hand on a small hand 'cradle', about the same size as a THE PALM OF YOUR HAND. The hand cradle is the interface between your body and a computer, which sends digital signals to your body and measures your body's responses. Your body's energy field responds to over 400 million bits of information per second. Zyto's technology is able to read and measure your body's response to digital signatures which indicate your body's preferences to help bring it back into a state of balance, and consequently, improved health.

ZYTO (tm) technology is used by more than 5,000 doctors and health care providers to make decisions on the health care needs of their clients with 95% proven accuracy. Now that same technology is available in our natural health office AND FOR YOU TO FINE TUNE YOUR programs UTILIZING NATURES SUSNHINE PRODUCTS which can easily be used to help you make decisions about your personal health and wellness program. ***The Zyto Compass does not diagnose or prescribe!***

The Compass measure 76 bio-markers in your body. It records THE BIO-FREQUENCY OF EACH MARKER FOR WHAT IS OUT OF RANGE OR OUT OF BALANCE. When the Compass registers the imbalance, it looks for the exact NATURE'S SUNSHINE SUPPLEMENTS that will assist in bringing

the bio-markers back into range, or balance. All 500+ NATURES SUNSHINE PRODUCTS have been scanned into the compass! Once those supplements have been calculated the Compass then gives you a report on the supplements. It will indicate which supplements assist in bringing how many markers back into range. Next it prints a description of each supplement and what it does for the client and why it will correct a problem. It is a very professional report. If you are utilizing this is your own HEALTH BUSINESS THEN at the end of your consultation, you click e-mail and it emails the report to your client and/or you just print off a report for them to have on hand immediately. The response by clients to this technology has been fantastic, they are very eager to order the supplements that their body is asking for! This along with utilizing your other training techniques makes for an awesome opportunity to be more successful in your practice.
